Why does the Yealink wireless screen transmitter software prompt a failure to connect to the host?

Last Update Time: 2022-11-11 Pageviews: 751

1. check that the RoomCast host is turned on as a wireless hotspot.
2. Plug the WPP20/30 into the RoomCast and re-pair it.
3. Replace the WPP20/30 or computer and try again.
